

To whom it may concern at the FCC:  
I respectfully urge you to reject the NAB's petition 04-160.

I have been a XM Satellite Radio subscriber since July 2002 and I truly love this product.

I travel alot and it is great that no matter where I travel in the US that I can listen to the same music format and get XM Instant Traffic and Weather. To get this information from the local stations you to listen to many boring commercials. I know who Ford, Coke, Bud Light, Coors Light, ect., ect. are and I do not need these promotions constantly shoved down my throat. I also have NO use for morning shows. There content is usually dumb and dumber. I am truly NOT SATISFIED with local radio programming. I feel that the local radio stations formats are what they want the public to hear and not what there listeners want to hear.

XM Satellite Radio offers me more than 100 channels of choice and I am willing to pay for these choices.

I strongly feel that if the FCC approves the NAB's petition 04-160 you will be stifling competition.

INSTEAD OF STRONG ARMING XM Satellite Radio WITH MORE GOVERNMENT RULES MAKE, PLEASE MAKE THE NAB COMPETE. I THOUGHT THAT IS WHAT CAPITALISM IS ALL ABOUT!!

Respectfully,

Scott J. Connor
